EXPERIENCE

Software Developer - *Slog Solutions* – *Dehradun*   **May 2025 – Present**

- Developed full-stack apps with AI features like chatbots and Army offline mode exam portal.
- Worked on **ParkFinder** website built on **React** and **MongoDB**.
- Conduct many army's technical training which enhanced my industrial experiences.

PROJECT

Army_Exam_Portal – DAT file security

- Developed a web-based Army (OIC) exam portal using **Django**, allowing users to interact with an fully offline mode exam portal.
- Uses **DAT file** security to prevent data leak , Allow users to conduct exams in local network.

Army_Chatbot – Army Data Management System

- Developed an offline AI chatbot to query army records using natural language (**Hinglish**)
- Integrated **Haystack with Whoosh** for fast, model-based search in Django & MySql.
- Designed a responsive chat UI for both admin and officer portals.
